

OBJECTIVE

Full Stack Developer with 2+ years of experience building scalable web applications using Angular and ASP.NET Web API. Skilled in developing responsive user interfaces, designing RESTful APIs, and working with MySQL to deliver efficient, user-focused solutions. Experienced in collaborating with clients and cross-functional teams, contributing to technical discussions, and implementing real-time features.

SKILLS

- Languages & Frameworks: C#, Java, Angular, ASP.NET Web API
- Frontend Tools: Angular Material , Kendo UI
- Databases: MySQL, SQL Server
- Other: SQL Server Reporting Services (SSRS)
- Soft Skills: Collaboration, Problem solving, Communication, Adaptability, Teamwork

EXPERIENCE

Civica	Jul 2026 - Present
Junior Software Developer	Vadodara, India
- Contributed to the development of an Education Management System utilizing .NET 8 and ASP.NET Web API. - Worked on the Angular framework upgrade from version 18 to 21 to optimize application performance. - Configured Postman testing workflows to validate backend API endpoints, verifying JSON payload structures sent from external 3rd-party timetable systems prior to database insertion.	
Mahardhi Technologies LLP	Apr 2025 - Jun 2026
Junior Software Developer	Surat, India
- Upgraded the frontend framework of the Lab Management System from Angular 18 to 20. - Developed a 2D grid-based positioning feature to dynamic map and track physical sample storage locations within the lab workflow. - Authored custom business and data reports using SQL Server Reporting Services (SSRS) based on client specifications. - Managed daily maintenance tasks and resolved client-reported issues tracked through Jira.	
Rydot Infotech Pvt. Ltd.	Aug 2024 - Mar 2025
Junior Software Engineer	Ahmedabad, India
- Maintained dynamic web applications using Angular, resolving client-facing frontend issues to ensure stability and code quality. - Efficiently triaged and resolved technical tickets in Jira, ensuring timely delivery of UI fixes and functional updates. - Applied clean coding practices within component-driven Angular projects to improve frontend modularity.	
Promact Infotech Pvt. Ltd.	Jan 2024 - Apr 2024
Full Stack Developer	Vadodara, India
During the learning phase of my internship, I completed tasks and training in HTML, CSS, SQL Database, Angular, C# and ABP.io	

PROJECTS

Lab Management | Angular · Kendo UI Angular · Asp DotNet Web API · MySQL

- Led the development of a laboratory operations platform for managing patient sample processing, tracking, and data storage across complex workflows.
- Optimized end-to-end operational processes using Angular and .NET Core, improving efficiency and scalability for high-volume data management.
- Integrated Elasticsearch to enable fast, accurate search capabilities and support real-time access to critical laboratory information.

Customer Success Platform | Angular · ABP.IO · PostgreSQL · Auth0

- Developed a customer success platform that improved collaboration and project visibility between administrators and stakeholders.
- Built personalized dashboards with secure Auth0 authentication, enabling users to track updates and manage project activities efficiently.
- Implemented automated email notifications and PDF export functionality to streamline communication and reporting workflows.

Email Notification System | Angular · Asp DotNet Web API

- Developed an Email Notification feature to send customized emails to users upon registration and password reset. This feature uses SMTP to send emails when users click the registration or reset password buttons.

EDUCATION

Marwadi University	Jul 2024
B.tech in Computer Science, CGPA 8.97
